TECHNOPRENEURSHIP

INTRODUCTION

Technology is an absolute need we cannot escape from, it has a very big role in most aspects of our lives. In other words, it answers most of mankind's problems. Across centuries, technology evolves.

Technology is opening up a universe of opportunities, unimaginable before. And there is a growing number of talented young business-oriented people to deploy technology to level the playing field for everyone. Fueled by the power of imagination and the changeable nature of a sector that has become a byword for innovation, technopreneurship has transitioned not only from the fantasies but to the mainstream as well.

Technopreneurs are riding on the wings of technology all around the globe to reshape, remodel and reinvent the way we live, work, play, learn, communicate, manufacture , name it ... the possibilities are endless. Entrepreneurship in general is a key driver of any economy. Wealth and a high majority of jobs are created by small businesses started by entrepreneurially minded individuals, many of whom go on to create big businesses.

Entrepreneurship is the process of starting a business or another organization. The entrepreneur develops a business model, acquires the human and other required resources, and is fully responsible for its success or failure. The future workforce needs to be skilled, diverse and creative, putting great emphasis on meeting the demands of the marketplace (local, as well as global). Entrepreneurship education is a lifelong learning process starting early and progressing through all levels of education, including adult education. Entrepreneurship Education focuses on developing understanding and capacity for pursuit of entrepreneurial behaviors, skills and attributes in widely different contexts

As a result, many experienced business people, political leaders, economists, and educators believe that fostering a robust entrepreneurial culture will maximize individual and collective economic and social success on a local, national, and global scale. It is with this mindset that Entrepreneurship Education that includes Technopreneurship be developed: to prepare youth and adults to succeed in an entrepreneurial economy.

COURSE OUTCOMES:

- Explain clearly the concepts of Technopreneurship, business ownership, creativity and innovative mind in IT Business.
- Manage a business successfully and commit ethical responsibilities in running a business to ensure sustainable for future expansion.
- Develop and implement business plan into successful action based on current technologies and creative a new venture to support business
- Understand the difference between entrepreneurship and technopreneurship
- Apply the principles and theories of entrepreneurship and management in IT business
- Understand the interplay between various factors affecting the IT business

MODULE 1
INTRODUCTION TO TECHNOPRENURSHIP

OVERVIEW:

Technopreneurship is, by a large part, still entrepreneurship. The difference is that technopreneurship is more involved in delivering innovative hi-tech, value added products and the creation scalable business ventures. It is the practice of consistently converting good ideas into profitable commercial business ventures.

Through its courses, it inculcates amongst students the philosophy of technopreneurship and develops values responsible for a mind-set shift from the traditional expectation of employment by government, industry and commerce.

Under the Technopreneurship ethos, graduates are capacitated to start innovative and high tech enterprises that address key macro-economic objectives and make an impact on the national economy.

LEARNING OUTCOMES:

After successful completion of this modules, you should be able to:

A. Describe the technopreneurship and entrepreneurship, cyberpreneurship
B. Explain the importance of technoprenuership
C. Discuss the characteristics of the technopreneur and entrepreneur
D. Identify difference between technopreneur and entrepreneur

COURSE MATERIALS:

TECHNOPRENEURSHIP DEFINE

Integration of technology, innovation and entrepreneurship. Act of turning something into a resource of high value by converting good ideas into business ventures that relies heavily on the application of human knowledge for practical purposes.

IMPORTANCE OF TECHNOPRENEURSHIP

Technopreneurship helps the unemployed person to be employed, by creating or inventing a new product. Through technology, they can invent or create devices and they can easily sell it online. As we all know internet and technologies are available and highly recommend in today's generation.

TECHNOPRENEUR DEFINE

Technopreneur is the person who destroys the existing economic order by introducing, new products and services, by creating new forms of organizations and by exploiting new raw materials. It is someone who perceives an opportunity and creates an organization to pursue it

DIFFERENCE TECHOPRENEUR AND ENTREPRENEUR

As nouns the difference between entrepreneur and technopreneur is that **entrepreneur** is a person who organizes and operates a business venture and assumes much of the associated

risk while **technopreneur** is (informal) an entrepreneur in the field of technology.

CHARACTERISTICS OF TECHNOPRENEUR

1. **Leadership** –This means that as a person, you serve as the spark to a bright idea and transform the dream into a reality.

2. **Flexibility** - Technopreneurs know that not everything produces great results and adapt to such circumstances easily.

3. **Discipline -** You need to structure your work so that you and everyone know their roles and responsibilities. Great discipline within the business will help you find out and tackle problems that arise with the venture.

4. **Strategist -** you need to be able to come up with unique products every time and have the magic to push your products to the market and let consumers see the real value it can bring into their lives.

5. **Focus -** you must know how to prioritize your tasks and responsibilities. You should learn to drop down distractions and focus on success oriented things.

KEY CHARACTERISTICS OF SUCCESSFUL ENTREPRENEURS

1. Entrepreneurs excel at identifying business opportunities and staying focused on opportunities, not problems.

2. They learn from their mistakes.

3. They are action-oriented. They like to get things done and love to turn their ideas into reality.

4. They understand what it takes to succeed and often have a high physical stamina to carry them through their lives and work.

5. Successful entrepreneurs seek outside help to supplement their expertise and their enthusiasm attracts people to their ideas, especially employees, creditors, investors and partners.

TEN D'S OF AN ENTREPRENEUR

1. **Dream**: Entrepreneurs have a vision of what the future could be like for them and their businesses. And, more importantly, they have the ability to implement their dreams.

2. **Decisiveness**: They don't procrastinate. They make decisions swiftly. Their swiftness provides a key factor in their success.

3. **Doers**: Once they decide on a course of action, they implement it as quickly as possible.

4. **Determination**: They implement their ventures with total commitment. They seldom give up, even when confronted by obstacles that seem insurmountable.

5. **Dedication**: They are totally dedicated to their business, sometimes at considerable cost to their relationships with their friends and families. They work tirelessly. Twelve-

hour days and seven-day work weeks are not uncommon when an entrepreneur is striving to get a business off the ground.

6. **Devotion**: Entrepreneurs love what they do. It is that love that sustains them when the going gets tough. And it is love of their product or service that makes them so effective at selling it.

7. **Details**: It is said that the devil resides in the details. That is never truer than in starting and growing a business. The entrepreneur must stay on top of the critical details.

8. **Destiny**: They want to be in charge of their own destiny rather than depend on an employer.

9. **Dollars**: Getting rich is not the prime motivator of entrepreneurs. Money is more a measure of their success. They assume that if they succeed they will be rewarded.

10. **Distribute**: Entrepreneurs distribute the ownership of their businesses with key employees who are critical to the success of the business.

DIFFERENCE BETWEEN CYBERPRENEURSHIP, ENTERPRENEURSHIP, AND TECHNOPRENEURSHIP

Cyberpreneurship is a business activity and business by using improved computer technology, especially the Internet, in this business and businesses that are promoted using electronic brochures, known as the homepage on the Internet.

Entrepreneurship is the person who dared to take a step to enter a particular activity or to welcome a new challenge, in entrepreneurship, there are three things most important are: creativity, innovation, opportunity-creation, and Calculated risk-taking.

Technopreneurship is a process in the formation of new businesses that view technology as a base, with the hope that the creation of appropriate strategies and innovations that could someday put the technology as one factor for the development of national economy.

ELEMENTS OF TECHNOPRENUERSHIP

1. **Human Capital** - the skill, capabilities, and knowledge of the firm's people.

2. **Organizational Capital** - the patents, technologies, processes, databases and networks.

3. **Social Capital** - The quality of the relationships with customers, suppliers and partners

ADVANTAGES OF ENTREPRENEURSHIP

1. Learning to See Possibilities Everywhere. An entrepreneur has to develop the skill and train his or her mind to stay open and receptive to potential ideas and possibilities.

2. **Defining Your Income**. You create the relationship between your efforts and your income.

3. **Flexibility in Your Schedule -** an entrepreneur you can ditch the rigid schedule.

4. **Enjoying Your Work -** you can create your own schedule, it doesn't necessarily mean there won't be long hours.

5. **Learning to be in the Moment -** you plan and schedule your day, set regular goals and work to achieve them.

IMPORTANT ENTREPRENEURIAL TRAITS

- Self-Awareness
- Self-Motivation
- Patience
- Decisiveness
- Experience
- Knowledge
- Perseverance
- Drive
- Total commitment
- Maturity
- Integrity

Courage
Confidence
Risk-taking
Hard work
Vision
Optimism
Creativity
resourcefulness
innovation
Emotional Balance

ROLES OF AN ENTREPENEUR

- Perceive opportunities in the environment
- Takes Risks
- Introduces innovations

OTHERS CATEGORIESD OF ENTREPRENEUR – Immigrant Entrepreneurs, corporate Castoffs, Copreneurs, Cyber Entrepreneurs, Part Time entrepreneurs, Home-based Business Owners.

PROS AND CONS OF AN ENTREPRENEUR

PROS OF AN ENTREPRENEUR

1. Control Your Own Destiny - You certainly may not have control over all the cards you are dealt, but you decide what you do with them. The worse the hand, the more amazing the win.

2. You Get to Do What You Love - You might not love every task and hour of the journey, but overall you get to choose to work on something you love and care about.

3. Maximize Your Contribution - Freeing yourself from working for someone else means you really get to maximize the impact you can have. When you make a huge contribution on a broad scale, in turn, the rewards will show up in increasing your own income and wealth.

4. Leading Others - you can create a great legacy and leave your mark on the world as an entrepreneur. More notably, you get to lead and inspire others by your example.

5. There's Nothing You'll Want to Do More - Whether you win or fail on your first or next venture, the journey will be your own reward. You'll be compelled to go at it again and again.

CONS OF AN ENTREPRENUER

1. You're Responsible for Your Own Destiny - You'll be responsible for your employees and their retirement. You'll be responsible for your impact on your customers.

2. Lack of a Road Map - You're figuring out much of it as you go along on a daily basis. Your flashlight lets you see just far enough ahead to take the next few steps.

3. **it's not going To Be Easy -** Your start-up might be bought for hundreds of millions of dollars in the next couple of years, but you need to buckle in and expect it to take the next 7 to 10 years to make an overnight success story.

4. **You have to create your own 401k Plan -** You're responsible for figuring out your own retirement plan. Making the money, setting enough aside, and reinvesting it in other things for balance.

5. **One Day You'll Have to Say Goodbye -** If things go well, one day you'll have to sell your company or free it to the public market. It's going to be harder than you think.

SOCIO-ECONOMIC BENEFITS FROM ENTREPRENEURSHIP

- Promotes self-help and employment
- Mobilizes capital
- Provides taxes to economy
- Empowers individual
- Enhances competitive consciousness
- Improves equality of life
- Enhances equitable distribution of income and wealth

SUMMARY OF VARIOUS ECONOMIES VIEW OF ENTREPRENEURSHIP

Activities/Assessment: Create in a docs and upload the file in a PDF form.

A. Discuss in your own words.

1. Which personal characteristic of successful entrepreneurs reflects that successful entrepreneurs work until the job is done?

2. What is the main reason that entrepreneurships fail?

3. What factors will make the company succeed?

B. Scenario-Based Questions: Answer briefly the following scenario in your own words.

1. Juan failed in his first business attempt but studied what went wrong and started again with a better strategy.

   Question:
   Which **key characteristic of successful entrepreneurs** does Juan demonstrate?

2. A business owner works 12 hours a day, sacrifices personal time, and stays committed despite difficulties.

Question:
Which **"D" of an entrepreneur** best describes this situation? Explain briefly.

3. A startup founder develops a cloud-based inventory system but refuses to adjust the product despite repeated customer feedback and declining sales. The business struggles to grow.

   Question:
   Which *characteristic of a technopreneur* is lacking in this scenario, and how could developing this characteristic improve the business outcome?

4. A group of IT graduates created a software company using strong technical skills. However, they failed to document processes, protect intellectual property, or build internal systems. After a year, operations became disorganized.

   Question:
   Which **element of technopreneurship** was neglected? Explain how this element supports business sustainability.

5. An entrepreneur identifies a new digital service opportunity but lacks funding and technical expertise. Instead of giving up, they collaborate with investors, developers, and partners to launch the product successfully.

   Question:
   Which **roles and traits of an entrepreneur** are demonstrated in this scenario? Provide at least **two** and justify your answer.
